### July 2010 - In This Issue

**Flowbus approvals**

**New factory**

**Actuator protection**

**Previous issues**

### Flowbus approvals

[Ascendant Technologies](#) and Flowbus Corporation are pleased to announce that Flowbus products have received vendor approval at Ruwais Fertilizer Industries (FERTIL).

They are added to the growing list of businesses who recognise the quality and service provided by [Flowbus](#) and its partners.

For more information or a copy of the latest approval and reference lists, contact Ascendant Technologies on +44 1495 767210 or [info@ascendant-technologies.com](mailto:info@ascendant-technologies.com)

### New factory

[Ascendant Technologies](#) were proud to to be invited to Seoul for the opening of the new manufacturing plant of [Flowbus Corporation](#).

The brand new purpose built facility, close to Incheon International Airport will provide additional R&D facilities and growth space for Flowbus who have experienced rapid expansion over the past few years.

The picture shows the Flowbus team, together with representatives from Ascendant Technologies in the foyer of the corporate headquarters building.

For more information, contact Ascendant Technologies on +44 1495 767210 or [info@ascendant-technologies.com](mailto:info@ascendant-technologies.com) or for data sheets [click here](#)

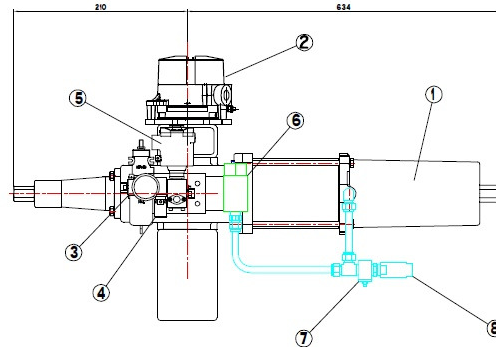

## Actuator protection

Heavy duty actuators are generally protected externally with a thick coating of epoxy paint for corrosive environments.

However, internal corrosion is more difficult to protect against. Although the cylinder internal bore is generally plated or treated, spring return actuators "breathe in" the external environment with every stroke.

To protect your actuators and ensure the longest service life, Ascendant Technologies can fit external pipework, a quick exhaust valve and a check valve, which together re-circulate the actuator supply air, preventing the actuator from sucking in corrosive air altogether.

For more information, contact Ascendant Technologies on +44 1495 767210 or [info@ascendant-technologies.com](mailto:info@ascendant-technologies.com)
