Ascendant Technologies Announcement

ISO9001 accreditation

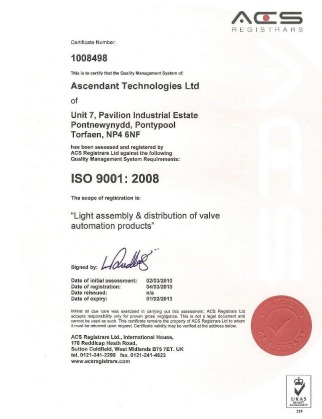

Ascendant Technologies Ltd. is proud to announce that it has been successfully audited by ACS registrars to the globally recognised **ISO9001:2008** standard.

The accreditation covers the Ascendant Quality Management System and assures our clients that our procedures are robust and repeatable.

We were particularly commended by the lead auditor as it was our first QA audit and we received zero non-conformances; a fact that we are very proud of!

A copy of the certificate is available from the download section of our website www.ascendant-technologies.com
