Fast delivery in Scotland

[Ascendant Technologies](#) has recently delivered an EPA series spring return pneumatic actuator FROM STOCK, destined for a cryogenic application for a client in Scotland.

The [Flowbus](#) actuator was fitted with stainless steel accessories.

The Ball Valves used were manufactured by [RMT Valvomeccanica](#) in Italy.

For more information on [Flowbus](#) or a copy of the latest stock lists, contact Ascendant Technologies on +44 1495 767210 or info@ascendant-technologies.com

Relocation

Due to a constantly increasing workload and growing stock levels, Ascendant Technologies will be relocating during October to a nearby facility which offers 7,500sq.ft of production/storage space.

The new facility will support the companies next phase of growth, whilst allowing us to expand our stocks of both heavy duty scotch yoke and general purpose rack and pinion actuators.

We do not anticipate a major disruption during the move and will inform all of our customers and suppliers of our new details as soon as we have settled in.

For more information, contact Ascendant Technologies on +44 1495 767210 or info@ascendant-technologies.com

New website

[Ascendant Technologies](#) will be launching our new website in the next 4 weeks.

The new site will allow our customers to find information easier and faster as well as allowing much easier communication with us via telephone, email, [Skype](#) or live chat.

If there are any features you would like us to include, please do not hesitate to get in touch!
